

# WE ARE NATIONAL STRAND

## PROUD LEADER OF USA-MADE & OWNED STRANDED WIRE PRODUCTS

With 40+ years of industry-leading expertise, National Strand delivers the ultimate in stranded and ACSR wire solutions supporting our nation's critical infrastructure.

Whether expanding or upgrading broadband networks, our reliable and customized stranded wire is designed to provide seamless connectivity and long-term success.

## Key Products & Applications

### ***Broadband Messenger & Span Wire***

#### ***Guy Strands:***

Engineered for maximum tensile strength & corrosion resistance. Ideal for supporting the structural integrity of owned poles, attached utility poles, and cell towers. Designed to support communication cables, telecom/broadband cables, and CATV wire applications.

#### ***Lashing Wires:***

A necessity for optimal security when installing aerial cables and supporting messenger wire.

#### ***OSP (Outside Plant) Wires:***

Function as supportive wire used in structural framework for aerial cable systems and act as the main support cable from which other cables are suspended or attached.

#### ***Utility Wires:***

Combine high conductivity with robust strength for reliable and efficient power transmission across extensive networks.

#### ***Specialty Cables:***

Custom-designed cables for specific applications.

## Industry-Leading Standards & Certifications

Our BABA compliant wires adhere to the highest industry standards, including ASTM, CSA, and telecommunications-specific compliance marks, ensuring the superior quality and reliability of our products.

### ***Key Codes:***

NAICS: 332618 | CAGE: 0RZV4

SIC: 3496 | DUNS: 122076441

## We Build Stronger Opportunities for Our Partners

### ***Reliability, Scalability, & Fast Delivery:***

Our strands offer reliable, dependable, and uninterrupted service connectivity. We have multiple manufacturing facilities and national distribution, giving us a competitive edge to deliver large orders rapidly and efficiently.

### ***Regulatory Compliance:***

We adhere to all federal, state, and local regulations, including Buy America provisions and other procurement requirements.

### ***Custom Solutions:***

We manufacture cables tailored to meet specific technical requirements that enhance network efficiency and safety. We also offer custom cut-to-length solutions – saving time and money on your project.

### ***National Distribution Network with Multiple U.S. Plants:***

We built a nationwide network of manufacturing facilities equipped with state-of-the-art machinery with a connected network of distributors that guarantees accessibility and support throughout the nation.
